

## SCHEDULE FOR THREE DIFFERENT INCREMENTS

We have finally proposed the project plan. Using the zenhub we have created the issues for our project. Project issues are divided as three increments.  
In the following, we gone show the work to improve in each increment.

The screenshot shows the ZenHub interface for the project 'Gnkhakimova / CS5551-Project'. The top navigation bar includes 'Pull requests', 'Issues', 'Marketplace', and 'Explore'. The main content area displays a Kanban board with four columns: 'New Issues' (11 issues, 36 Story Points), 'Icebox' (8 issues, 118 Story Points), 'Backlog' (3 issues, 66 Story Points), and 'In Progress' (0 issues, 0 Story Points). The 'New Issues' column contains three issues: 'CS5551-Project #1 Use case stories', 'CS5551-Project #5 Increment 1 - Documentation Features & Technologies', and 'CS5551-Project #6 Increment 1 - Documentation - Project Management'. The 'Icebox' column contains three issues: 'CS5551-Project #22 increment 3-Add to database', 'CS5551-Project #18 increment 2-Barcode reader', and 'CS5551-Project #13 Increment 2-Design Barcode reader UI'. The 'Backlog' column contains three issues: 'CS5551-Project #23 increment 3-Test Application', 'CS5551-Project #20 increment 3-Parse output from API', and 'CS5551-Project #19 increment 3-API call to get best price'. The 'In Progress' column is currently empty.

The screenshot shows the ZenHub interface for the project 'Gnkhakimova / CS5551-Project'. The top navigation bar includes 'Pull requests', 'Issues', 'Marketplace', and 'Explore'. The main content area displays a Kanban board with four columns: 'New Issues' (11 issues, 36 Story Points), 'Icebox' (8 issues, 118 Story Points), 'Backlog' (3 issues, 66 Story Points), and 'In Progress' (0 issues, 0 Story Points). The 'New Issues' column contains four issues: 'CS5551-Project #7 Increment 1 - Documentation User stories, Use case & Services', 'CS5551-Project #8 Increment 1 - Documentation Implementation', 'CS5551-Project #9 Increment 1 - Documentation Testing', and 'CS5551-Project #10 Increment 1 - Search for API to'. The 'Icebox' column contains four issues: 'CS5551-Project #16 increment 2-Register User', 'CS5551-Project #17 increment 2-Social Media login', 'CS5551-Project #21 increment 3-Display result from API call to the user', and 'CS5551-Project #13 Increment 2-Design Barcode reader UI'. The 'Backlog' column contains three issues: 'CS5551-Project #23 increment 3-Test Application', 'CS5551-Project #20 increment 3-Parse output from API', and 'CS5551-Project #19 increment 3-API call to get best price'. The 'In Progress' column is currently empty.

New Issue +

11 Issues - 36 Story Points

New Issues

CS5551-Project #9  
Increment 1 - Documentation Testing

CS5551-Project #10  
Increment 1- Search for API to get best price  
Find APIs to get best prices

CS5551-Project #11  
Increment-1-Search for Database  
Find APIs to get best prices

8 Issues - 118 Story Points

Icebox

CS5551-Project #16  
increment 2-Register User  
Implementation of the project

CS5551-Project #17  
increment 2-Social Media login  
Implementation of the project

CS5551-Project #21  
increment 3-Display result from API call to the user  
Implementation of the project

3 Issues - 66 Story Points

Backlog

CS5551-Project #20  
increment 3-Test Application  
Test application

CS5551-Project #20  
increment 3-Parse output from API  
Implementation of the project

CS5551-Project #19  
increment 3-API call to get best price  
Implementation of the project

0 Issues - 0 Story Points

In Progress

3 Issues - 3 Story Points

Review

CS5551-Project #23  
increment 3-Test Application  
Test application

CS5551-Project #20  
increment 3-Parse output from API  
Implementation of the project

CS5551-Project #19  
increment 3-API call to get best price  
Implementation of the project
